AudioBench

Sit back, swing and relax! The AudioBench is a unique bench designed for the public space. By simply sitting on it and swinging back and forth, music and sounds will start playing! Swinging on the AudioBench generates Human Powered Energy, this energy is used to produce the sounds and music! Zoo sounds, jungle sounds, children's songs, top 40 songs. The AudioBench could also tell the story of your city or a piece of art, endless possibilities! Inside of the AudioBench there is a USB stick, volume knob and a switch to play the music in alphabetical order or random order. The USB stick holds all the music and sounds, by simply putting different .mp3 audio files on the stick, your AudioBench will start playing different sounds! It's important to sometimes just sit down and relax!

All Playnetic products are 100% Human Powered. The user generates the energy. There is no need for external electricity or batteries.

All Playnetic products enhance the playing experience through beautiful audio design.

All Playnetic products are weather resistant.

Playnetic products can enrich the playing experience through LED lighting technology.

Playnetic products offer fun, exciting and challenging games through brightly illuminated push buttons or other forms of input.

Several Playnetic products have a removable USB stick with .mp3 audio files. This allows for easy customization and new content.

All Playnetic products use .mp3 coding format. This is a universally used file format for audio. It allows for easy customization and content creation.
