ShotSpot

The ShotSpot is a unique piece of playground equipment. Spin the handle, generate Human Powered Energy, pick one of the 3 games and go! Play with a group of friends or by yourself, play on one side or the other side! Play with a ball or use your hands and feet! The ShotSpot can be used in a variety of ways. There are 6 panels on the ShotSpot which have a sensor and a bright LED inside. Games are played by hitting these panels. There are 3 games to choose from: Sharpshooter, Music and Goal Keeper. The ShotSpot stimulates the user to use their brains and muscles. Installation of the ShotSpot is easy because there is no need for external electricity or batteries, the user generates the energy!

All Playnetic products are 100% Human Powered. The user generates the energy. There is no need for external electricity or batteries.

All Playnetic products enhance the playing experience through beautiful audio design.

All Playnetic products are weather resistant.

Playnetic products can enrich the playing experience through LED lighting technology.

Playnetic products offer fun, exciting and challenging games through brightly illuminated push buttons or other forms of input.

Several Playnetic products have a removable USB stick with .mp3 audio files. This allows for easy customization and new content.

All Playnetic products use .mp3 coding format. This is a universally used file format for audio. It allows for easy customization and content creation.
